Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The program administers different computerized educational programs, including the search for information and the use of multimedia for conducting the educational process. A computer and multimedia laboratories are utilized in the process. Students use technology effectively to manage data and prepare documents to improve teaching and learning in the classroom. The program considers the principles of universal design. Students of the general population as well as students with special needs requiring reasonable accommodation are assisted in technology-based instruction. The institution prepares teachers to use Intelligent Boards for course instruction. The students take two courses that prepare them to use the technology. One course prepares them with general knowledge to use the technology and the other course teaches them to apply their knowledge to create programs, documents, modules, reports and plans. Students are trained by cooperative teachers to manage student data in their clinical experiences through technology programs in the schools. This information is private.

Teacher Training

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

The Inter- American University of Puerto Rico, Fajardo Campus, prepares students to become teachers according to the federal and state laws regarding education for students with special needs. They are prepared to develop the skills of classroom observations, classroom management, technological assistance, assessment and IEP elaboration. In addition, students are prepared to involve parents in their children's education.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The Special Education Program prepares students according to federal and state requirements to participate in the elaboration of the IEP. Students are prepared in all steps to elaborate the IEP with a professional team and parents. These professionals provide information of the students' academic performance that will allow them to meet their educational goals and objectives. They are prepared to adapt the curriculum to the students' needs through reasonable accommodation. Related services established in the IEP will be considered in the student's progress.

c. Effectively teach students who are limited English proficient.

The university services students with limited Spanish proficiency. Our curriculum does not consider students who have limited Spanish proficiency.

2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The IAUPR, prepares students with the necessary skills to teach students with special needs. The program prepares students in classroom observation, curriculum adaptation based on the IEP., materials adaptation. technological assistance, classroom management, and assessment.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Teacher candidates are prepared to participate in the IEP elaboration. The Department of Education of Puerto Rico has a written policy that establishes all federal and state law requirements to be an active member of the IEP team. Likewise, the PRDE has the responsibility to provide information of the students' achievements.

c. Effectively teach students who are limited English proficient.

The university services students with limited Spanish proficiency. Our curriculum does not consider students who have limited Spanish proficiency.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Inter American University-Fajardo Campus-General Catalog-(2022-2023)(Students services) Education (B.A. and Certificate) The Teacher Education Program constitutes an answer to the needs and aspirations of a society in constant change and to the requirements for certification of the Puerto Rico Department of Education. Taking as a basis Vision 2022, the mission and goals of Inter American University of Puerto Rico, the Institutions concept of an educated person and the professional standards that characterize the teaching professional, the Teacher Education Program provides a framework of integrated educational experiences. The Program is directed toward the professional formation of a teacher of excellent quality, that is, one who can contribute in an effective manner to produce the changes deemed desirable in students, knowledgeable about the problems confronting education in Puerto Rico and capable of collaborating in the process of change to improve the quality of both the teacher's life and that of others. The Program, therefore, seeks to achieve a greater integration of its components: professional courses, major courses and general education courses. Teacher preparation emphasizes the development of those skills and attitudes that allow for the formation of a critical, flexible and creative mind that by using educational theories as the starting point is capable of identifying and posing problems, of carrying out research to find solutions and proposing adequate answers which can be verified through experimentation. The new vision of teacher preparation implies a program of studies that provides a great number of related experiences that provide for the construction of pedagogical knowledge and content which will develop the future teacher. These experiences are characterized by continuous reflection, practice in real settings, research, collaboration, the relevance of contents, the pedagogical model and the search for and use of tools that permit the solution of problems inherent in the teaching learning processes in different contexts. In this Program of studies the general education, major, and core course components will be integrated. This vision may be translated into the following goals of the Teacher Education Program as reflected in the graduates who are expected to: 1. Be committed to the professionalization of their chosen field and help dignify the teaching profession with their performance. 2. Use critical reflection as a tool in pedagogical practice. 3. Recognize and use the classroom as a laboratory of human experiences that will increase and enrich the teaching-learning endeavor. 4. Utilize research as a resource for enriching and expanding knowledge and improving pedagogical practice. 5. Perform a pedagogical practice founded on the mastery of knowledge. 6. Be a leader in promoting change and innovation. 7. Conceive of education as a human process. 8. Understand that formal and informal education contribute to the development of the humanistic and scientific culture of society. 9. Be aware of the need for collaborative work as an essential component of their pedagogical practice. 10. Conceive of the oral and written language in their vernacular and second language as essential instruments for the teaching learning process. 11. Be aware of their ethical and legal responsibilities to take positions and to contribute to the solution of problems. 12. Make effective use of technology. 13. Have a clear vision of the diverse ways in which populations are distributed. 14. Be committed to the practice and promotion of a better quality of life.
